## Community Report - 2016

### *Letter from the Library Board President*

In May, the library will celebrate the tenth anniversary of moving into our new facility. I want to once again thank Katherine Meade for the time and energy she spent making our new building happen. She was the driving force behind everything that had to be done to make the new library a reality. To this day, when new people visit us for the first time, they are amazed that such a small town has such a beautiful library.

A beautiful building by itself is not enough to make a library a success at providing great services to the community. I want to also thank all the people who have contributed over the past ten years. To our staff, thank you for putting so much heart in everything you do: maintaining our excellent collections, offering exceptional programs, maintaining our records and all the other administrative activities that support the library. Thank you to our volunteers who cover the circulation desk, maintain the used book sale room and generally free up staff to do their work. Thank you to the Board of Trustees who, in addition to providing excellent oversight, devote their time to fund raising, maintenance of the building and grounds, oversight of technology, acknowledging donations and anything else that comes along.

The efforts of all of these people have made the library a great success for the past ten years. Stay tuned for information about the 10<sup>th</sup> anniversary bash we are planning for September.

*Pat Etter,  
President, Board of Trustees*

*Libraries are for everyone.*

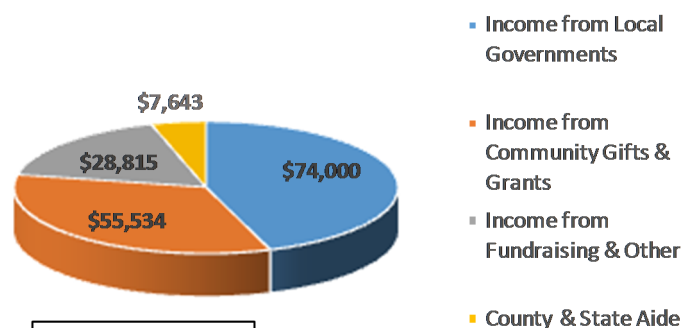

# Your Library by the Numbers
